

German engineering at its best

Toners | Printers | Service | Leasing | MPS

PRESS RELEASE – April 4th 2017

German Imaging Technologies (GIT) reports its best quarter in history.

April 4th 2017, Dubai: German Imaging Technologies, the leading printing document solutions provider in the Middle East and Africa, reports its best quarter ever.

Dr. Sassan Dieter Khatib-Shahidi, CEO of German Imaging Technologies, announced on LinkedIn that the company's first quarter of 2017 showed 27 percent growth year-over-year, and 12 percent from the fourth quarter 2016 to this quarter. The final quarter of last year was also 18 percent higher than the final quarter in the previous year.

“This steady growth is the result of both our strategic initiatives and the efforts consented by every employee in GIT. Combined together, they gave us the foundation to innovate and deliver more value to the market. We look forward to sustaining these efforts in the coming quarters to keep delivering more benefits to our customers.” declared Dr. Sassan-Dieter Khatib Shahidi, CEO and founder of German Imaging Technologies.

Founded in 1999, German Imaging Technologies has been recognized by IDC as the leading OEM-alternative supplier from 2007 and continues to help more than 2,000 customers in 15 countries across the Middle-East and Africa by providing premium remanufactured toner cartridges, printers, leasing, service contracts and managed print services, helping these customers reduce their problems, costs and environmental impact. The company has embarked on a regional expansion strategy and prides itself in delivering a compelling turn-key printing solution in a reliable, responsible and responsive manner.
